President's Point of View, by Bill Vultaggio

What Are You Thankful For?

More than likely if you are reading this and fortunate to have power ... no doubt you are thankful to those working vigilantly to restore our electricity so we can begin the clean up process and get back to some degree of normalcy. But as we enter November, where our thoughts typically turn to the holidays, the joy of being with our families and glad tidings, for many, thoughts of the holidays may be the furthest thing from our minds. While "Sandy" has redefined our priorities (temporarily), she also has provided us the opportunity to reach out to those in need, including our Brother and Sister riders. Those "connected" have witnessed our fellow members reaching out to many in need thru Facebook, calling (when you could maintain a connection) and via email, offering a warm meal, hot shower or a place to sleep. Although many have had their lives and lifestyles changed (some more dramatically than others), so too have we come together to help family and friends in need. (Kinda brings back memories of "911", huh?)

No electricity, heat or hot water ... coupled with long gas lines and a little "nor-Easter" thrown in to boot ... has pushed many to limits they have never experienced. Some may say, "Is this a test?" Perhaps ... a test of our ability to act with human kindness and compassion to our loved ones and neighbors. And this too shall pass becoming a memory many of us will likely never forget. No doubt there are a good many things we all are "thankful" for and those we are "thankful" to who have stepped up in helping those at this difficult time. And if you receive this newsletter and still need help, all you need to do is to contact us and we will be there.

And as we rapidly approach the end of another year, we take a moment to reflect on the amazing memories we created together. The rides and events, the new friends we have made along the way and traveling down some amazing roads together. We have come a long way this first year as the "LI Harley Riders" ... and as a family we continue to grow. And the reason for that growth is due to the efforts of those compassionate Officers and Road Captains who work tirelessly in helping to make our club the success it is today. It takes many hands to make our club function as seamlessly as it does and I must take the time to recognize those responsible for the success and

growth thus far.

Starting with my right hand – Vice (and soon to be) President – Fred Hartmann who has worked diligently with me this past year, while grooming for the task he will undertake come the first of the new year. Like every successful organization, the individual who leads the pack sets the example for us to follow and I'm grateful for Fred's support and know he will do a great job leading our group forward.

Our Secretary, Pat Grant, has been invaluable to me and our group. Pat tirelessly maintains communication with in our group – be it the hotline, the weekly emails, documenting our club records and, not to mention, keeping me in line. Pat's efforts are to be applauded and I am truly grateful for her efforts and support!

Our “keeper of the cash” – Treasurer – George Foundotos manages to keep us in the black. I don't want to know how or why ... as long as we are in the black that's all that matters. Each and every time we seek to promote an activity, George comes through with the resources to make it happen. And you'll all agree, we've had a number of great events this past year.

As we are a group of “riders” – an inordinate amount of time is devoted towards planning our club rides and the efforts of Head Road Captain – Ken Grant and his Assistant – Mario Ruffolo – along with their contingent of Road Captains: Charlie Abruzzo, Bob Bernstein, Joe Bonura, Bob Corso, Buzzy Farquhar, Steve Ficalora, Nadine & Fred Hartmann, Gary Kinkle, Dick Klein, Mike Macari, Dave Marzola, Cisco Mercado, Dom Mozzone, Ken Pastor, Bob Read, Lou Vaccarelli. They are to be commended for their time, efforts and planning as they are responsible for the smiles and awesome memories associated with the rides our members have engaged in this past year, amassing more than 7,000 miles!

Where safety is paramount in group riding, our Safety Officer – Dom Mozzone – has worked diligently to ensure the safety of all our members by constantly reminding us of safe practices we all need to employ while out there with our “knees-in-the-breeze” – Thank you Dom!

While only “1” year old, our group continues to grow and we are fortunate to have Chris Vultaggio heading up our Membership. Over the past year, Chris has focused on converting the former Lighthouse members to our new club, while fostering a growing number of AMA members. In addition to keeping up with our members, Chris also handles our Jack Daniels event and we are indebted to her efforts and support.

2012 provided some awesome activities and overnight trips and we must take the time to thank Nadine Hartmann for her attention to the planning and arrangements ensuring the success of each event, notwithstanding making sure the bagels are timely ordered and delivered for each monthly meeting. We are grateful to Nadine for her compassionate support as the Activities Officer and, as she steps down at the end of this year, we give THANKS for all she has done to ensure the success of this year's activities.

Documenting our clubs events and activities is no easy task, one our Historian, Lou Vaccarelli, works diligently to record and capture for posterity. We are grateful to Lou for his support with this task, and along with his wife Agnes, for graciously hosting this year's Summer House Party. Ask anyone who participated (or wound up in the hot tub) what a great time was had.

As we started 2012 with a new club name, so too did we start with a new website that has progressively gotten better. And we have our Webmaster, Rod Morgenweck, to thank for his time and efforts in making our website one of the premier motorcycle club sites on Long Island. I would be remiss if not taking the opportunity to thank longstanding member Mark York, who created our site and mentored Rod in making our website the success it is today. As one of our primary means of communication, our members are indebted to them both.

Our Lady of Harley Officer, Annette Greco, has done a terrific job promoting our Ladies group and the activities they engaged in this past year. Reaching out to all our Lady members, she has seen an increase in participation and we look to Annette's continued dedication and support going forward.

Over the past 10 years, our members have had the good fortune to support two children's hospital charities and we must thank Dom Mazza – our Public Relations Officer– for his diligence in maintaining communication between both the Sagamore and Winthrop Children's Hospitals. Dom has been the primary liaison between both facilities – providing our members the opportunity to help those needy children. "Priceless"! Additionally, we must thank Dom and his sister, Gertrude, for her compassionate support in providing our club with the exquisite custom Harley Pillows and the upcoming Harley Tee-Shirt Blanket that one lucky member will win at this year's Holiday Party (Dec 1st in case you haven't yet bought a ticket!).

We can't begin to say enough good things about our monthly newsletter! Joe Giacalone and Annette Greco have done a magnificent job and I believe I speak for all our members in saying, they, like a fine wine, only get better with time. Our newsletter has captured the awesome events our members have engaged in this past year. In addition to the amazing support by many of our members contributing to the newsletter with content and photos, our monthly newsletter has transformed into one of the most informative and entertaining resources our club has today and we give THANKS to Joe and Annette for their time, efforts and compassionate support.

Photographers Pat Donohue and Cisco Mercado did a terrific job capturing the smiles of our members this past year. One only needs to view our website to see we've had an increase in rider participation and Pat and Cisco have been there to capture those happy occasions. We are grateful to them both for their contributions to the website, as well the amazing photos documenting our rider participation this past year.

How fortunate we are to have such a dedicated group of volunteers who all share the same passion – and their rewards are the smiles seen in all the photos, as well the memories we created together. I applaud each and every Officer and Road Captain for their willingness and desire as they continue to do what they do best!

As for me, I'm humbled to have led this amazing group, partaking in its development and having served side-by-side with so many terrific volunteers sharing the same goal and creating memories and bringing smiles to those who join in the fun! I'm encouraged to see so many members wanting to become involved as Officers and Road Captains. Their commitments will only ensure that we will see many, many more rewarding rides and events going forward.

We look forward to a new year, exploring new roads and destinations, while creating new memories... which we will do together... for truly there are.... you know the rest...

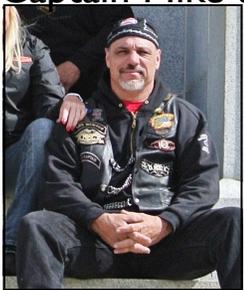

Our thoughts and prayers go out to all those affected by Sandy. The impact to our Island and to the lives of thousands of our neighbors is unprecedented. Please let us know if there is anything we can do for any of our members who continue to suffer from its effects.

THE YORK TRIP THAT ALMOST WASN'T ...

Captain Mike takes charge showing us the back roads with corn, cows and hogs

This restaurant is a part of the John Wright Co. Originally founded in 1880, it sits on the Susquehanna River and still manufactures cast iron products. It is located in Wrightsville, which was George Washington's first choice for our nations capital.

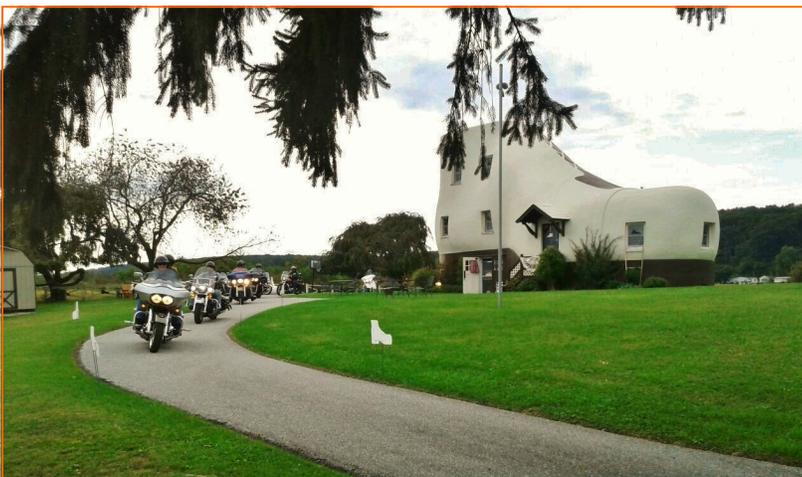

YORK CONTINUED... GETTYSBURG

The girls showing off their cannons

President Bill takes over, leading us to the Haines Shoe House built in 1948 by Mahlon N. Haines as an advertising gimmick for his shoe sales business.

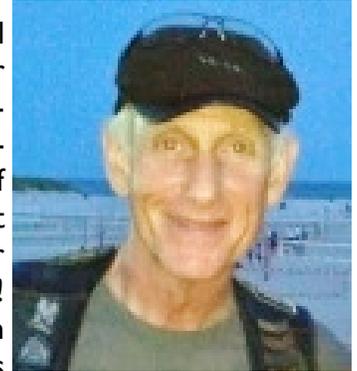

JUST BOB'S Ride to the San Gennaro Feast in Hampton

Thank You, Bill

By Joe Giacalone, Editor

As you all know, Bill Vultaggio has been our club leader for the past several years ... as Director of the Lighthouse HOG and as inaugural President of our LI Harley Riders. At the October meeting, Bill announced that he would be stepping down at the end of this year and we would be remiss if we didn't acknowledge his tremendous contributions to our club. Bill has given countless hours of dedicated service and has fostered a team of Officers and Road Captains that have made this club one the best around. On behalf of all of the members of our club, let's raise our collective Jack Daniels glasses and say THANK YOU, BILL!!! You have been an inspiration to many and have left the leadership of our club in very capable hands. We will continue to honor your legacy through our efforts in the future.

Over the years, Bill's front-page articles have addressed numerous topics and themes. I'll always remember his references to "The Milwaukee Vibrator" and riding with our "Knees in the Breeze" and, of course, Bill's favorite tag line "Too Many Roads ... Too Little Time ...!" But by far the most common theme addressed was that of the incredible people, experiences and memories that have been created as part of this club. These are truly priceless!

So, if you would indulge me, I'd like to share a fond memory with Bill since he has played such an extraordinary role in the development of Annette and I as new riders ... not just Harley riders, but completely green, never-on-a-motorcycle riders. I still remember my first ride with the Lighthouse HOG in May 2010. It was a Wednesday evening ride specifically designed for new members, as well as new riders, to get acclimated to group riding. Other than three of our 'big guns' ... Bill, Dom Mozzone and Ken Grant (all Officers) ... I was the only one to show up. OMG! I was very intimidated and nervous, but they were all very supportive and patient with me. I still remember Bill telling me that it's just a matter of putting "hours in the saddle."

At the next monthly meeting a few days later, Bill asked me to introduce myself and address the members about my experience riding with a group for the first time. I couldn't believe this group of "bikers" would be that interested in hearing about my first 50 miles on a bike. Afterwards, many members shared their enthusiasm for riding with me and Annette and we felt like we had walked into something very special ... something we were truly hoping was going to be positive for our new passion. From that point on, Bill became our mentor.

Only days later, I went down on my bike. Both Bill and Dom ... guys I had known for less than a week ... provided instant assistance and support with my bike and at the hospital. I still laugh today telling the story about when Bill came to visit me that night in the hospital ... in full biker attire ... and my mother chewed his ear off about being a bad influence on me "with this motorcycle thing." I don't think Bill found it all that funny at the time, but he was a great sport.

Bill continued to guide us as Annette and I attended as many rides and events as possible and volunteered to do the little things from time to time. I was truly honored in mid-2011 when he asked me to join the Officer group as Editor. Annette was asked a few months later to become the Lady of Harley Officer. Our acceptances were purely on the basis of Bill's confidence in us, as neither of us felt we had enough experience as riders (or with the club in general) to perform well in these roles.

For these and the countless other memories to date, Annette and I thank you.

DID YOU KNOW? ... The area now known as Northport was sold to three Englishmen in 1656 by Chief Asharoken, head of the Matinecock Indians. Because the early settlers grazed cattle around the harbor, it became known as Cow Harbor. The Skidmore House on Main St., built in 1761, is the oldest house still standing in Northport.

Preparation for Winter Riding

By Dom Mozzone, Safety Officer

The winter chills are around the corner and a lot of us in the club ride all year ... 'weather permitting'. Our seasoned winter riding veterans, you will notice, wear layered clothing in addition to various pieces of heated gear. During the summer months, wind is a welcomed part of riding to cool us down. In the winter, cold wind, if not properly prepared for, will make riding very uncomfortable and could affect your reaction time and cause rapid frostbite on any exposed skin. You need to dress in the winter the way you want your rain gear to work in the summer ... with no leaks, in this case ... no air leaks! The way to plug air leaks is with layered clothing that will cover your arms, legs with added chaps, torso, neck and chin ... making sure not to obstruct breathing, which will cause your eye protection to fog at slower speeds. Additionally, heated gloves are an optimum choice for winter riding comfort. By following these clothing guidelines, you will be properly prepared to handle the winter-riding cold weather.

Winter riding will also require us to modify our behaviors somewhat in that we will have compressed time frames to ride and need to consider weather forecasts, temperature and moisture conditions before riding. You will notice that our club's winter riding schedules will begin later in the morning and end earlier in the afternoon. This is due to AM & PM frost on the roads. The later AM start allows the frost to dissipate once the sun rises; as well, the early PM sunsets and temperature drops that frost the roads and impact traction are avoided.

When riding in cold weather and especially on side roads, if you come across sand or leaves, particularly if the road is shaded, consider it 'iced' and ride as you would over wet leaves ... no turns or hard braking ... and keep the motorcycle going straight until you pass the hazard. Riding year round is certainly enjoyable and to take advantage of the passion we have without any seasonal restriction brings varied experiences ... like "NO TRAFFIC" out east!! I should also mention how much our V-twin engines love that chill in the air and purr sooooo smoothly. Wouldn't it be nice if our V-twins ran on a hot, summer day in traffic like they do in the winter?

The bottom line: Dress appropriately, modify your riding times, consider rapidly changing weather conditions that will limit your flexibility and take advantage of the beautiful LI local roads that we avoid during the summer traffic crunch. Ride safe, ride prepared, ride often, ride the winter. Try it ... you'll like it!!!
